Incorrect

Mark 0 out of 1

When discussing IDS / IPS, what is a signature?

- ☒ A. An electronic signature used to authenticate the identity of a user on the network. 
- ☐ B. Attack-definitionfile8
- ☐ C. It refers to "normal," baseline network behaviour
- ☐ D. None of the above

The correct answer is:

Attack-definitionfile8

Question 2

Correct

Mark 1 out of 1

Which of following is not the rule action type of snort rule ?

- ☐ A. alert
- ☐ B. log
- ☐ C. drop
- ☒ D. direction 

The correct answer is:

direction

Question 3

Incorrect

Mark 0 out of 1

```
18:52:08.730624 24.147.188.237.4797 > my.host.26.224.3879:S 546052661:546052661(0) win 32120 <mss 1460,sackOK,timestamp 59927143
0,nop,wscale 0> (DF) (ttl 48, id 6 3341) 18:52:08.730691 my.host.26.224.3879 >
24.147.188.237.4797: R 0:0(0) ack 546052662 win 0 (ttl 255, id 784)
```

The above tcpdump output indicates _____

- ☐ A. The target host does not exist
- ☐ B. The target host rejected ACK number 546052662
- ☒ C. The target host does not have a service running on port 3879 ❌
- ☐ D. The target host does not have a service running on port 4797

The correct answer is:

The target host does not exist

Question 4

Correct

Mark 1 out of 1

The ____ option of Tcpdump is used to print the link-layer header.

- ☐ A. -S
- ☐ B. -nn
- ☒ C. -e ✔️
- ☐ D. -X

The correct answer is:

-e

Question 5

Incorrect

Mark 0 out of 1

Write the command to capture only 500 packets from dump.pcap using tcpdump.

- ☐ A. tcpdump -n 500
- ☐ B. tcpdump -c 500
- ☐ C. tcpdump -n 500 dump.pcap
- ☒ D. tcpdump -c 500 dump.pcap ❌

The correct answer is:

tcpdump -c 500

Question 6

Correct

Mark 1 out of 1

Print or capture only SYN-ACK packet coming at your interface using tcpdump:

- ☒ A. tcpdump 'tcp[13]=18' ✔️
- ☐ B. tcpdump 'tcp[13]=16'
- ☐ C. tcpdump 'tcp[13]=2'
- ☐ D. tcpdump 'tcp[13]=8'

The correct answer is:

tcpdump 'tcp[13]=18'

Question 7

Correct

Mark 1 out of 1

tcpdump is used for capturing packet of layer:

- ☐ A. application layer
- ☒ B. network layer ✔️
- ☐ C. physical layer
- ☐ D. transport layer

The correct answer is:

network layer

Question 8

Correct

Mark 1 out of 1

Which of the following is true for anomaly based IDS?

- ☒ A. They alert administrators about the deviations from "normal" traffic behavior ✓
- ☐ B. The technology is mature and reliable enough to use on production networks.
- ☐ C. They scan network traffic or packets to identify matches with attack-definition files.
- ☐ D. None of the above..

The correct answer is:

They alert administrators about the deviations from "normal" traffic behavior

Question 9

Correct

Mark 1 out of 1

In IDS/IPS, anomalies are also referred to as _____, surprise, aberrant, deviation, peculiarity, etc.

- ☒ A. Outliers ✓
- ☐ B. Normal distribution
- ☐ C. Mean
- ☐ D. Box plot

The correct answer is:

Outliers

Question 10

Correct

Mark 1 out of 1

Anomaly detection technique based on _____

- ☐ A. Signature sets
- ☐ B. Training data
- ☐ C. Packet analysis
- ☒ D. Deviated data ✓

The correct answer is:

Deviated data

Question 11

Correct

Mark 1 out of 1

Which of the following best describes an attack that alter the content of two critical files?

- ☒ A. Integrity ✓
- ☐ B. Confidentiality
- ☐ C. Availability
- ☐ D. Authentication

The correct answer is:

Integrity

Question 12

Correct

Mark 1 out of 1

What is a false negative?

- ☒ A. Results when an attack or an intrusion goes undetected ✓
- ☐ B. An alert sent to an incorrect management station
- ☐ C. Results when the IDS system reports an alarm, although an actual intrusion doesn't occur on the network
- ☐ D. There is no such thing as a false negative

The correct answer is:

Results when an attack or an intrusion goes undetected

Question 13

Correct

Mark 1 out of 1

-----is the business impact and the probability of that vulnerability being exploited.

- ☐ A. Threat
- ☐ B. Vulnerability
- ☐ C. Exploit
- ☒ D. Risk ✓

The correct answer is:

Risk

Question 14

Correct

Mark 1 out of 1

_____ is placed at a strategic point or points within the network to monitor traffic to and from all devices on the network.

- ☐ A. HIDS
- ☐ B. Anomaly-based IDS
- ☐ C. Passive IDS
- ☒ D. NIDS ✓

The correct answer is:

NIDS

Question 15

Correct

Mark 1 out of 1

Known vulnerabilities in a application software are identified by _____

- ☒ A. CVE ID (Common Vulnerabilities and Exposure) ✓
- ☐ B. Common Vulnerability Scoring System (CVSS)
- ☐ C. Exploitable Score
- ☐ D. None of these above

The correct answer is:

CVE ID (Common Vulnerabilities and Exposure)

Question 16

Correct

Mark 1 out of 1

What is the length of TTL field of IP header (in bits) ?

- ☐ A. 4
- ☒ B. 8 ✓
- ☐ C. 6
- ☐ D. 13

The correct answer is:

8

Question 17

Incorrect

Mark 0 out of 1

What is the total length of TCP header in bytes ?

- ☐ A. 16
- ☐ B. 20
- ☒ C. 40 
- ☐ D. 60

The correct answer is:

20

Question 18

Correct

Mark 1 out of 1

What are the two main types of intrusion detection systems based on detection methodology?

- ☐ A. Protocol-based and host-based
- ☒ B. Misuse and Anomaly 
- ☐ C. Active and reactive
- ☐ D. Intelligent and passive

The correct answer is:

Misuse and Anomaly

Question 19

Correct

Mark 1 out of 1

Which of the following is not a capability of network-based IDS?

- ☐ A. Can detect denial-of-service attacks
- ☒ B. Can decrypt and read encrypted traffic 
- ☐ C. Can decode UDP and TCP packets
- ☐ D. Can be tuned to a particular network environment

The correct answer is:

Can decrypt and read encrypted traffic

Question 20

Correct

Mark 1 out of 1

alert tcp \$EXTERNAL_NET any -> 192.168.1.0/24 111 (msg: "mountd access"; content: "[00 01]"; sid:1000001;)

The above signature / rules applies to the which traffic (movement of packet)

- ☒ A. External Network to Home Network ✓
- ☐ B. External Network to External Network
- ☐ C. Home Network to External Network
- ☐ D. Home Network to Home Network

The correct answer is:

External Network to Home Network

Question 21

Correct

Mark 1 out of 1

When an organization decides to insure some of its assets, what type of risk mitigation method they are adopting?

- ☐ A. Risk Avoidance
- ☐ B. Risk Reduction
- ☒ C. Risk Transfer ✓
- ☐ D. Risk Elimination

The correct answer is:

Risk Transfer

Question 22

Incorrect

Mark 0 out of 1

Which type of control the security policy is?

- ☐ A. Physical Preventive Control
- ☒ B. Technical Preventive Control ❌
- ☐ C. Administrative Detective Control
- ☐ D. Administrative Preventive Control

The correct answer is:

Administrative Preventive Control

Question 23

Incorrect

Mark 0 out of 1

How often should a business continuity plan be tested?

- ☐ A. Whenever there are significant changes in the organization
- ☐ B. Every Month
- ☒ C. Half Yearly ❌
- ☐ D. Every three years

The correct answer is:

Whenever there are significant changes in the organization

Question 24

Incorrect

Mark 0 out of 1

Choose the correct order:

- ☐ A. Risk Quantification, Risk Management, Risk Treatment
- ☒ B. Risk Analysis, Risk Quantification, Risk Treatment ❌
- ☐ C. Risk Management, Risk Quantification, Risk Analysis
- ☐ D. Risk Analysis, Risk Management, Risk Quantification

The correct answer is:

Risk Analysis, Risk Management, Risk Quantification

Question 25

Correct

Mark 1 out of 1

Which are the activities done during Audit Planning?

- ☐ A. Field Work, Evaluation and Testing
- ☐ B. Confirmation of planned actions, Audit Response verification
- ☒ C. Internal Control questionnaire, Audit scopes, Objectives ✓
- ☐ D. Communication, Audit findings, Assessment results

The correct answer is:

Internal Control questionnaire, Audit scopes, Objectives

Question 26

Correct

Mark 1 out of 1

Which of the following is a Security Audit Tool?

- ☒ A. nmap ✓
- ☐ B. uname
- ☐ C. cat /etc/passwd
- ☐ D. /var/log/messages

The correct answer is:

nmap

Question 27

Correct

Mark 1 out of 1

A method of evaluating the security of a computer system or network by simulating an attack by a hacker is called as?

- ☐ A. Incident Test
- ☐ B. Security Test
- ☐ C. Network Test
- ☒ D. Penetration Test ✓

The correct answer is:

Penetration Test

Question 28

Correct

Mark 1 out of 1

Internal Information Security Auditor can _____.

- ☒ A. Provide suggestion on implementing control ✓
- ☐ B. Configure the system to implement the control
- ☐ C. Write code for implementing control
- ☐ D. Take care of operating the control

The correct answer is:

Provide suggestion on implementing control

Question 29

Correct

Mark 1 out of 1

Which of this data gathering technique is most important in auditing?

- ☐ A. Review earlier audit reports
- ☐ B. Interview employees based on audit questionnaire
- ☐ C. Use various tools for system auditing
- ☒ D. Review documents like policies, old audit reports etc. ✓

The correct answer is:

Review documents like policies, old audit reports etc.

Question 30

Correct

Mark 1 out of 1

Define Risk

- ☒ A. The probability that a particular threat will exploit a particular vulnerability ✓
- ☐ B. Business is all about Risk and Reward
- ☐ C. The probability that a particular vulnerability will exploit a particular threat
- ☐ D. Risk is loss of money

The correct answer is:

The probability that a particular threat will exploit a particular vulnerability

Question 31

Correct

Mark 1 out of 1

What are the three Risk based approaches?

- ☐ A. Identify, Remove and Restore
- ☒ B. Accept, Mitigate, Transfer ✓
- ☐ C. Analyze, Accept and Resolve
- ☐ D. Analyze, Resolve and Restore

The correct answer is:

Accept, Mitigate, Transfer

Question 32

Correct

Mark 1 out of 1

Which control classification attempts to repair the impact of a threat?

- ☐ A. Preventive
- ☐ B. Detective
- ☐ C. Deterrent
- ☒ D. Corrective ✓

The correct answer is:

Corrective

Question 33

Correct

Mark 1 out of 1

An Indian Company opening a branch in Japan where earthquake is more often – This risk shall be

- ☐ A. Not accepted
- ☒ B. Accepted ✓
- ☐ C. Mitigated
- ☐ D. Transferred

The correct answer is:

Accepted

Question 34

Correct

Mark 1 out of 1

Define Internal Controls?

- ☐ A. Control Tools used to detect risks
- ☒ B. Ensures proper functioning of processes within the company ✓
- ☐ C. Defines the efficient Audit procedures
- ☐ D. Process in the Audit Planning

The correct answer is:

Ensures proper functioning of processes within the company

Question 35

Incorrect

Mark 0 out of 1

Which of the following is the major step in the pre-audit preparation phase?

- ☐ A. Review the procedures followed
- ☐ B. Review organizations existing network diagram
- ☐ C. Arrange a meeting with the senior management and take their inputs
- ☒ D. Review the previous audit reports ✗

The correct answer is:

Arrange a meeting with the senior management and take their inputs

Question 36

Incorrect

Mark 0 out of 1

What are the types of Internal Controls?

- ☐ A. Asses, Remove and Protect
- ☒ B. Analyze, Design Process, Implement ✗
- ☐ C. Qualitative and Quantitative
- ☐ D. Preventive, Detective, Reactive

The correct answer is:

Preventive, Detective, Reactive

Question 37

Incorrect

Mark 0 out of 1

Which of the following is the most important phase of implementing information security?

- ☐ A. Defining various security policies
- ☒ B. Creating Service Level Agreements 
- ☐ C. Performing Risk analysis
- ☐ D. Planning Audit activities

The correct answer is:

Performing Risk analysis

Question 38

Correct

Mark 1 out of 1

Reactive Internal Control is also called as

- ☐ A. Preventive Control
- ☐ B. Proactive Control
- ☒ C. Corrective Control 
- ☐ D. Detection Control

The correct answer is:

Corrective Control

Question 39

Incorrect

Mark 0 out of 1

Logging all activities for later analysis is a

- ☐ A. Corrective Control
- ☐ B. Preventive Control
- ☐ C. Detective Control
- ☒ D. Proactive Control 

The correct answer is:

Detective Control

Question 40

Incorrect

Mark 0 out of 1

Which of the following is the right Audit Process?

- ☐ A. Planning, Assessment, Follow-up and Reporting
- ☐ B. Planning, Assessment, Reporting, Documenting
- ☐ C. Planning, Design, Testing, Implementation
- ☒ D. Planning, Assessment, Reporting, Follow-up 

The correct answer is:

Planning, Assessment, Follow-up and Reporting
