

☒ Easy Level (10 MCQs)

1.

What is the first step in the computer forensics process?

- A) Preservation
- B) Collection
- C) Identification
- D) Analysis

Answer: C

Explanation: Identification is the initial step where sources of evidence are located.

2.

Which law governs cyber activities in India?

- A) Indian Penal Code
- B) IT Act 2000
- C) Digital Crime Act
- D) Cyber Protection Act

Answer: B

Explanation: The IT Act 2000 is the main legislation governing cyber activities in India.

3.

Which of the following is a tool used in computer forensics?

- A) Notepad
- B) Excel
- C) EnCase
- D) WinRAR

Answer: C

Explanation: EnCase is a professional tool used for forensic investigation.

4.

Digital Forensics is also known as:

- A) Computer science
- B) Criminal law
- C) Digital medicine
- D) Computer forensics

Answer: D

5.

Unauthorized activity in a company may result in:

- A) Promotion
- B) Pay hike
- C) Disciplinary action
- D) Holiday

Answer: C

6.

Preservation in computer forensics means:

- A) Deleting old data
- B) Encrypting files
- C) Preventing data tampering
- D) Backing up a phone

Answer: C

7.

Cyber laws help in:

- A) Promoting gaming
- B) Defending human rights only
- C) Governing online behavior
- D) Installing software

Answer: C

8.

What is the final stage in the forensic process?

- A) Identification
- B) Presentation

C) Collection

D) Analysis

Answer: B

9.

Hacking a website is a type of:

A) Network upgrade

B) Ethical act

C) Computer crime

D) Maintenance

Answer: C

10.

Which law regulates digital signatures in India?

A) Criminal Law Amendment

B) IT Act 2000

C) Cyber Crime Law

D) Signature Act

Answer: B

☒ Medium Level (20 MCQs)

11.

Which of the following best describes computer forensics?

- A) Studying computer hardware
- B) Using computers to solve crimes
- C) Collecting and analyzing digital evidence
- D) Creating software programs

Answer: C

12.

Unauthorized activities are best categorized as:

- A) Always criminal
- B) Never punishable
- C) Breach of company policy
- D) Legal but unethical

Answer: C

13.

Which phase involves creating a disk image of evidence?

- A) Identification

- B) Preservation
- C) Analysis
- D) Reporting

Answer: B

14.

What does a write blocker do in forensics?

- A) Writes data faster
- B) Prevents data modification
- C) Encrypts files
- D) Backs up files

Answer: B

15.

Who requires the services of forensic investigators?

- A) Only police
- B) Banks and companies
- C) Anyone involved in digital incidents
- D) Only IT departments

Answer: C

16.

Cyber laws in India are enforced by:

- A) Ministry of Finance
- B) CERT-In
- C) Ministry of Electronics and IT
- D) RBI

Answer: C

17.

Which is NOT a stage in the forensic process?

- A) Recovery
- B) Examination
- C) Analysis
- D) Presentation

Answer: A

18.

Which cyber law section deals with hacking in India?

- A) Section 66
- B) Section 72
- C) Section 2
- D) Section 90

Answer: A

19.

Which forensic activity involves interpreting log files?

- A) Collection
- B) Examination
- C) Presentation
- D) Preservation

Answer: B

20.

Data collected should be:

- A) In original format
- B) Changed to be readable
- C) Copied to Excel
- D) Edited for clarity

Answer: A

21.

Which organization leads cyber forensics in India?

- A) UIDAI
- B) CERT-In
- C) IRCTC
- D) TRAI

Answer: B

22.

Digital forensics can be used in which of the following?

- A) Power failure
- B) Office renovation
- C) Employee fraud
- D) Printer repairs

Answer: C

23.

A cybercrime that uses email is called:

- A) Malware
- B) Phishing
- C) DDoS
- D) Spoofing

Answer: B

24.

Which device can be used as digital evidence?

- A) Pen drive
- B) Mobile phone
- C) Laptop
- D) All of the above

Answer: D

25.

Deleted files can be recovered in which phase?

- A) Analysis
- B) Examination
- C) Preservation
- D) Collection

Answer: B

26.

Which is an example of cybercrime?

- A) Using Wi-Fi
- B) Accessing public websites

C) Installing pirated software

D) Plugging in a mouse

Answer: C

27.

Evidence integrity is ensured by:

A) Changing file names

B) Adding passwords

C) Using checksums and hashes

D) Copying files to Word

Answer: C

28.

The process of verifying that digital evidence hasn't been altered is called:

A) Logging

B) Imaging

C) Hashing

D) Mounting

Answer: C

29.

Unauthorized access to systems is punishable under which act?

- A) Income Tax Act
- B) Copyright Act
- C) IT Act
- D) Arbitration Act

Answer: C

30.

Which term refers to tracing actions done on a system?

- A) Authentication
- B) Audit trail
- C) Firewall
- D) Load balancer

Answer: B

☒ Hard Level (10 MCQs)

31.

Which algorithm is often used for hashing evidence?

- A) RSA

- B) AES
- C) SHA-256
- D) DES

Answer: C

32.

Live forensics deals with:

- A) Crashed systems
- B) Powered-off systems
- C) Volatile data in running systems
- D) Backup drives

Answer: C

33.

Bit-stream imaging means:

- A) Copying file system structure only
- B) Copying entire disk bit-by-bit
- C) Copying files into folders
- D) Formatting a drive

Answer: B

34.

Which standard governs digital evidence handling?

- A) ISO 27001
- B) RFC 1918
- C) RFC 959
- D) ISO 17025

Answer: D

35.

Chain of custody ensures:

- A) Evidence reaches court safely
- B) Evidence is securely deleted
- C) Virus-free operation
- D) Software license validity

Answer: A

36.

Which file system makes forensic recovery difficult?

- A) FAT32
- B) NTFS
- C) ext4
- D) SSD TRIM-enabled

Answer: D

37.

Which of the following is NOT a forensic acquisition type?

- A) Logical
- B) Physical
- C) Selective
- D) Hypothetical

Answer: D

38.

Which tool is used for volatile memory analysis?

- A) FTK
- B) Volatility
- C) Disk Drill
- D) Clonezilla

Answer: B

39.

Which protocol may leak data in forensic investigations?

- A) DNS
- B) FTP
- C) SSH
- D) Telnet

Answer: D

40.

Which file contains metadata about digital evidence in forensic tools?

- A) Case report
- B) E01
- C) EXE
- D) TXT

Answer: B

Explanation: .E01 is the EnCase evidence file containing both data and metadata.
