

Here are 40 multiple-choice questions (MCQs) on Session 5: Continual Service Improvement (CSI), structured as:

- 10 Easy
- 20 Medium
- 10 Hard

Each question has 4 options, the correct answer, and an explanation with citations.

☒ Easy (10 MCQs)

1.

What is the first step in the 7-Step CSI Improvement Process?

- A) Where are we now?
- B) Define what you should measure
- C) Identify gaps in SLAs
- D) Prepare for action

Answer: B

The first step is to define what you should measure ([proprofs.com](https://www.proprofs.com), purplegriffon.com).

2.

Which question corresponds to the CSI step “Did we get there?”

- A) What’s the vision?
- B) How do we keep the momentum going?
- C) Did we get there?
- D) Where are we now?

Answer: C

This step evaluates whether desired outcomes were achieved (blog.masterofproject.com, [proprofs.com](https://www.proprofs.com), cram.com).

3.

Which model aligns with CSI’s approach?

- A) Waterfall
- B) PDCA (Plan-Do-Check-Act)
- C) Agile Scrum
- D) Six Sigma DMAIC

Answer: B

CSI is based on the Deming Cycle, PDCA (de.wikipedia.org, [proprofs.com](https://www.proprofs.com), [scribd.com](https://www.scribd.com)).

4.

Which is not a step in the PDCA cycle?

- A) Plan
- B) Do
- C) Pay
- D) Check

Answer: C

Pay is not part of the PDCA cycle ([proprofs.com](https://www.proprofs.com)).

5.

CSI aims to continuously improve:

- A) Marketing campaigns
- B) IT services and processes
- C) Hiring interviews
- D) Legal compliance

Answer: B

CSI focuses on ongoing enhancement of IT services and processes (proprofs.com, purplegriffon.com).

6.

What question is linked to “Where do we want to be?” in CSI?

- A) What’s the vision?
- B) Where are we now?
- C) Define goals and targets
- D) How do we get there?

Answer: C

This step defines desired future states and targets (blog.masterofproject.com, proprofs.com).

7.

CSI covers which lifecycle phases?

- A) Only Service Operation
- B) Strategy, Design, Transition, Operation
- C) Finance
- D) Only Transition

Answer: B

CSI encompasses all service lifecycle phases (blog.masterofproject.com, proprofs.com, axelos.com, proprofs.com).

8.

Why repeat PDCA cycles?

- A) One cycle suffices

- B) To support continual improvement
- C) To slow down processes
- D) To increase compliance checks

Answer: B

The entire PDCA cycle is repeated for ongoing improvement ([proprofs.com](https://www.proprofs.com)).

9.

CSI metrics are used to:

- A) Justify, direct, validate, and intervene
- B) Only justify budgets
- C) Replace SLAs
- D) Promote tools

Answer: A

Metrics help validate, direct, justify, and intervene ([quizlet.com](https://www.quizlet.com), [proprofs.com](https://www.proprofs.com)).

10.

Which model outlines CSI as questions like “How do we keep the momentum going?”

- A) Six Sigma
- B) 6-question continual improvement model
- C) ITIL v2
- D) PDCA only

Answer: B

The 6 Q-model guides CSI with targeted questions ([quizizz.com](https://www.quizizz.com), blog.masterofproject.com, [axelos.com](https://www.axelos.com), [proprofs.com](https://www.proprofs.com)).

☒ **Medium (20 MCQs)**

11.

What is the second step in the 7-Step process?

- A) Plan improvements
- B) Gather data
- C) Define vision
- D) Keep momentum

Answer: B

Step 2 is to gather the data (examtopics.com, coursehero.com, proprofs.com).

12.

Which comes after “Did we get there?”

- A) Plan
- B) Keep momentum
- C) Analyze data
- D) Vision

Answer: B

The final step is “How do we keep the momentum going?” (proprofs.com, fr.wikipedia.org).

13.

What is NOT an objective of CSI?

- A) Review SLA results
- B) Improve efficiency
- C) Manage day-to-day operations
- D) Increase cost-effectiveness

Answer: C

Operational delivery is not an objective of CSI (proprofs.com, purplegriffon.com).

14.

Which metric area does not align with CSI?

- A) Purpose

- B) Objectives
- C) Inputs/Outputs
- D) Vendor ESG scores

Answer: D

Vendor ESG is outside CSI measurement focus ([proprofs.com](https://www.proprofs.com)).

15.

Which pair completes the 7-step model?

- A) Did we get there? ↔ Plan
- B) Plan ↔ Gather data
- C) What's the vision? ↔ Define measure
- D) Keep momentum ↔ vision

Answer: A

After evaluation, plan new actions ([proprofs.com](https://www.proprofs.com), purplegriffon.com, blog.masterofproject.com).

16.

From which lifecycle phase is data needed to ask “Did we get there?”

- A) Service Strategy
- B) Service Operation
- C) Service Transition
- D) Service Design

Answer: B

Data comes from Service Operation ([proprofs.com](https://www.proprofs.com), [proprofs.com](https://www.proprofs.com)).

17.

CSI uses metrics to:

- A) Track incidents
- B) Make decisions, validate outcomes
- C) Replace Change Management
- D) Create baselines only

Answer: B

Metrics direct actions and validate results ([scribd.com](https://www.scribd.com)).

18.

What are the four reasons to monitor and measure?

- A) Validate, Direct, Justify, Intervene
- B) Plan, Do, Check, Act
- C) Align, Design, Transition, Operate
- D) Input, Process, Output, Outcome

Answer: A

These are the reasons per CSI best practices ([proprofs.com](https://www.proprofs.com)).

19.

Which is required before starting 7-step CSI?

- A) Vision & Strategy, Tactical & Operational Goals
- B) Metrics
- C) Tools
- D) COBIT

Answer: A

Pre-step requires identifying vision & goals ([proprofs.com](https://www.proprofs.com), blog.masterofproject.com).

20.

Which is a CSI tool to manage improvement ideas?

- A) Constant Changes Board
- B) Continual Improvement Register (CIR)
- C) Service Desk Ticket
- D) Event Log

Answer: B

CIR tracks improvement ideas end-to-end ([examttopics.com](https://www.examttopics.com), [axelos.com](https://www.axelos.com)).

21.

CSI measurement areas include:

- A) Process, Technology, Service metrics
- B) SLA, OLA, UC
- C) Hours, Budget, Team size
- D) Employees, Customers, Stakeholders

Answer: A

CSI focuses on technology, process, service metrics (proprofs.com).

22.

Baselines in CSI should be:

- A) Static policy documents
- B) Documented and mutually agreed
- C) Only external benchmarks
- D) Unnecessary

Answer: B

Baselines must be documented and accepted (quizizz.com).

23.

Which statements describe the 6-question model?

- A) What's the vision? & How to proceed?
- B) How to code services?
- C) What are tools used?
- D) Who is the manager?

Answer: A

The 6 fundamental questions guide CSI (blog.masterofproject.com).

24.

Which describes "Where are we now?" step?

- A) Define goals
- B) Baseline current performance
- C) Implement changes
- D) Write SLAs

Answer: B

It establishes the baseline for measurement (blog.masterofproject.com, coursehero.com).

25.

CSI governance includes:

- A) No reporting
- B) Formal review cycles and CSI board
- C) Weekly stand-ups only
- D) Untracked ad hoc activities

Answer: B

CSI needs governance through reviews and oversight (purplegriffon.com, blog.masterofproject.com).

26.

Who ensures CSI initiatives are executed?

- A) CSI Manager
- B) Incident Analyst
- C) Desktop Technician
- D) End User

Answer: A

CSI Manager is accountable for improvement execution.

27.

CSI calls the repeat of PDCA cycles:

- A) One-time
- B) Continual
- C) Optional

D) Irrelevant

Answer: B

CSI is perpetual, not one-time. ([scribd.com](https://www.scribd.com), blog.masterofproject.com, purplegriffon.com, proprofs.com).

28.

Metrics must be:

A) Balanced & few (2-3 per success factor)

B) Plentiful & detailed

C) Purely financial

D) Warehoused

Answer: A

Use just enough balanced metrics .

29.

CSI reviews should:

A) Include SLA and cost data

B) Occur once

C) Exclude stakeholders

D) Ignore metrics

Answer: A

Reviews include performance and financial aspects (blog.masterofproject.com).

30.

CSI ensures improvement is:

A) Reactive only

B) Planned and cyclical

C) Unstructured

D) Vendor-controlled

Answer: B

CSI must be scheduled and cyclic.

☒ Hard (10 MCQs)

31.

Which step answers “Where do we want to be?”

- A) Preparation
- B) Setting targets aligned with vision
- C) Gathering data
- D) Maintaining momentum

Answer: B

Defines measurable future targets (blog.masterofproject.com, quizlet.com).

32.

Which metrics are foundational for CSI decisions?

- A) CSFs & KPIs
- B) OLA only
- C) Debug logs
- D) Employee count

Answer: A

Critical Success Factors and KPIs guide CSI.

33.

CIR is used to:

- A) Track improvement ideas from identification to action
- B) Log incidents
- C) Manage assets

D) Store contracts

Answer: A

CIR tracks and manages improvement ideas (proprofs.com, examtopics.com).

34.

Why align CSI with business objectives?

A) It's optional

B) Ensures improvements support strategy

C) It boosts budgets

D) Avoids audits

Answer: B

Alignment is key to relevance and value.

35.

Which is an outcome of repeated CSI cycles?

A) Increased volatility

B) Continuous learning and optimized services

C) One-time fixes

D) Finance reports only

Answer: B

Repeated cycles drive learning and service optimization.

36.

Which KPI category does CSI focus on?

A) Technology, Process, Service

B) Product Count

C) HR Turnover

D) Retail Sales

Answer: A

Metrics cover these CSI domains (proprofs.com, fr.wikipedia.org).

37.

In CSI, baselines are best used for:

- A) Ignoring change
- B) Tracking improvement
- C) Stalling teams
- D) Vendor blame

Answer: B

Baselines support improvement measurement (de.wikipedia.org).

38.

"How do we keep momentum?" asks for:

- A) No further action
- B) Planning next improvement cycle
- C) Ending CSI
- D) Function hibernation

Answer: B

It drives new cycle planning (quizlet.com).

39.

Which step comes after gathering and processing data?

- A) Vision
- B) Analysis and presenting findings
- C) Change management initiation
- D) Disbanding team

Answer: B

Next is analysis and presentation.

40.

CSI promotes:

- A) Audit avoidance
- B) Culture of continuous improvement across all lifecycle phases
- C) Project-based effort
- D) One-off training

Answer: B

CSI embeds improvement culture enterprise-wide .
