

Easy (10)

1.

What is Cyber Crime?

- A) Illegal activity involving computers or networks
- B) Software development
- C) Data backup
- D) Network configuration

Answer: A

Explanation: Cyber crime involves unlawful acts targeting computers or networks.

2.

Which Indian Act primarily addresses cyber crimes?

- A) IT Act, 2000
- B) IPC
- C) RERA
- D) Companies Act

Answer: A

Explanation: The Information Technology Act, 2000 deals specifically with cyber offenses.

3.

What is Ethical Hacking?

- A) Authorized testing of systems for security vulnerabilities
- B) Unauthorized hacking
- C) Writing malware
- D) Software licensing

Answer: A

Explanation: Ethical hacking is legal and authorized security testing.

4.

Which phase in ethical hacking involves gathering information?

- A) Reconnaissance
- B) Exploitation
- C) Scanning
- D) Covering tracks

Answer: A

Explanation: Reconnaissance is about collecting target information.

5.

What is a 'Backdoor'?

- A) A hidden way to bypass security
- B) A firewall setting
- C) A type of malware
- D) A software update

Answer: A

Explanation: A backdoor lets attackers access systems without authorization.

6.

Which section of IT Act deals with hacking?

- A) Section 66
- B) Section 420
- C) Section 144
- D) Section 302

Answer: A

Explanation: Section 66 defines hacking and its punishment.

7.

Which international treaty focuses on cybercrime?

- A) Budapest Convention
- B) Geneva Convention
- C) Kyoto Protocol
- D) Paris Agreement

Answer: A

Explanation: Budapest Convention is the main international cybercrime treaty.

8.

Which type of hacker is authorized and ethical?

- A) White Hat
- B) Black Hat
- C) Gray Hat
- D) Script Kiddie

Answer: A

Explanation: White hats test security ethically.

9.

What is 'Phishing'?

- A) Fraudulent attempts to steal sensitive data via fake emails
- B) Scanning network ports
- C) Installing antivirus software
- D) Encrypting data

Answer: A

Explanation: Phishing uses fake communication to steal info.

10.

Obscenity on the internet is regulated because:

- A) It may violate societal norms and laws
- B) It increases bandwidth use
- C) It improves website traffic
- D) It enhances search engine rankings

Answer: A

Explanation: Many countries regulate obscene content to protect social values.

Medium (20)

11.

Which of the following is NOT a phase of ethical hacking?

- A) Maintenance of access
- B) Reconnaissance
- C) Legal prosecution
- D) Scanning

Answer: C

Explanation: Legal prosecution is outside the hacking process.

12.

Which hacking type involves political motives?

- A) Hacktivists
- B) Script Kiddies
- C) Black Hat
- D) White Hat

Answer: A

Explanation: Hacktivists hack for political or social causes.

13.

In Indian Penal Code, which section addresses cheating and dishonesty?

- A) Section 420
- B) Section 66
- C) Section 307
- D) Section 302

Answer: A

Explanation: Section 420 deals with cheating including cyber fraud.

14.

Which technique is used in reconnaissance?

- A) Social engineering
- B) Data encryption
- C) Firewall setup
- D) Software installation

Answer: A

Explanation: Social engineering gathers info by manipulating people.

15.

What is the main objective of 'Scanning' in ethical hacking?

- A) To identify live hosts, open ports, and vulnerabilities
- B) To crash the system
- C) To steal data
- D) To send spam emails

Answer: A

Explanation: Scanning finds weaknesses in systems.

16.

What is the legal significance of the IT Act in India?

- A) It defines cyber crimes and penalties
- B) It regulates banking
- C) It governs traffic rules
- D) It manages telecom licensing

Answer: A

Explanation: IT Act defines offenses like hacking and data theft.

17.

What type of hacker uses tools developed by others without deep knowledge?

- A) Script Kiddie
- B) White Hat
- C) Black Hat
- D) Gray Hat

Answer: A

Explanation: Script kiddies use pre-made scripts/tools.

18.

Which of the following is a method to hide tracks after an attack?

- A) Clearing logs
- B) Scanning ports
- C) Using antivirus
- D) Data backup

Answer: A

Explanation: Clearing logs removes evidence of intrusion.

19.

Which Indian law governs transmission of obscene content?

- A) Section 67 of IT Act
- B) Section 420 of IPC
- C) Section 144 of CrPC
- D) Section 498A of IPC

Answer: A

Explanation: Section 67 prohibits publishing or transmitting obscene content electronically.

20.

Which of the following is a common tool used in penetration testing?

- A) Nmap
- B) Excel
- C) Photoshop
- D) WordPress

Answer: A

Explanation: Nmap is used for network scanning.

21.

Which term describes exploiting a bug to gain higher privileges?

- A) Privilege escalation

- B) Footprinting
- C) Backdoor installation
- D) Malware injection

Answer: A

Explanation: Privilege escalation elevates user rights illegally.

22.

Which international body facilitates cooperation on cybercrime?

- A) Interpol
- B) WTO
- C) IMF
- D) WHO

Answer: A

Explanation: Interpol helps international law enforcement cooperation.

23.

Ethical hacking must be performed:

- A) With proper authorization
- B) Secretly
- C) For financial gain
- D) Without informing anyone

Answer: A

Explanation: Authorization ensures legality and ethics.

24.

Which of the following is NOT an example of cybercrime?

- A) Hacking
- B) Phishing
- C) Installing a firewall
- D) Identity theft

Answer: C

Explanation: Installing firewalls is a security measure.

25.

Which Indian act includes provisions for cyber terrorism?

- A) IT Act Section 66F
- B) IPC Section 420
- C) CrPC Section 144
- D) Companies Act

Answer: A

Explanation: Section 66F addresses cyber terrorism.

26.

Which method is commonly used to collect information during reconnaissance?

- A) Google hacking
- B) SQL Injection
- C) Firewall bypass
- D) Virus scanning

Answer: A

Explanation: Google hacking uses search engines to find vulnerable info.

27.

Which of these is a characteristic of Black Hat hackers?

- A) Malicious intent
- B) Legal authorization
- C) Ethical behavior
- D) Working for governments

Answer: A

Explanation: Black hats hack for illegal purposes.

28.

What is 'social engineering'?

- A) Manipulating people to disclose confidential info
- B) Encrypting data
- C) Installing anti-malware
- D) Scanning ports

Answer: A

Explanation: Social engineering tricks humans into revealing secrets.

29.

Which is an example of cyber fraud?

- A) Online auction scams
- B) Using antivirus software
- C) Updating software
- D) Setting up firewalls

Answer: A

Explanation: Online scams deceive victims for financial gain.

30.

Which term refers to software that replicates itself to spread to other systems?

- A) Worm
- B) Trojan
- C) Spyware
- D) Adware

Answer: A

Explanation: Worms self-replicate and spread through networks.

Hard (10)

31.

What is the purpose of a 'honeypot' in cybersecurity?

- A) To attract and monitor attackers
- B) To store passwords
- C) To block malware
- D) To encrypt data

Answer: A

Explanation: Honeypots are traps to study attacker behavior.

32.

Which of the following is a key feature of the Budapest Convention?

- A) Promotes international cooperation to fight cybercrime
- B) Regulates domain name registration
- C) Manages software licensing
- D) Sets internet speed standards

Answer: A

Explanation: The Convention facilitates cross-border investigations.

33.

How does 'man-in-the-middle' attack work?

- A) Attacker intercepts and possibly alters communication between two parties
- B) Malware deletes files
- C) Unauthorized access to database
- D) Email spamming

Answer: A

Explanation: MITM captures and modifies messages in transit.

34.

Which tool is commonly used for exploiting vulnerabilities during penetration testing?

- A) Metasploit
- B) Microsoft Word
- C) Adobe Photoshop
- D) VLC Player

Answer: A

Explanation: Metasploit helps exploit known vulnerabilities.

35.

Which section of IT Act prescribes punishment for identity theft?

- A) Section 66C
- B) Section 66F
- C) Section 67
- D) Section 72

Answer: A

Explanation: Section 66C defines and penalizes identity theft.

36.

Which hacking phase involves establishing persistence inside a network?

- A) Maintaining access
- B) Reconnaissance
- C) Scanning

D) Covering tracks

Answer: A

Explanation: Maintaining access ensures continued control over the system.

37.

Which Indian law addresses the publishing of false electronic messages?

A) Section 66D of IT Act

B) Section 420 of IPC

C) Section 67 of IT Act

D) Section 144 of CrPC

Answer: A

Explanation: Section 66D penalizes cheating by impersonation through electronic communication.

38.

What kind of hacker may violate laws but without malicious intent?

A) Gray Hat

B) White Hat

C) Black Hat

D) Script Kiddie

Answer: A

Explanation: Gray hats often act without permission but not for harm.

39.

Which phase of ethical hacking involves erasing evidence of hacking?

A) Covering tracks

B) Exploitation

C) Scanning

D) Reconnaissance

Answer: A

Explanation: Covering tracks hides signs of intrusion.

40.

Which cybercrime involves the use of malware to lock files and demand ransom?

A) Ransomware attack

B) Phishing

C) DoS attack

D) SQL Injection

Answer: A

Explanation: Ransomware encrypts files and demands payment to restore access.
